# Next-Gen WiFi

## Effortlessly work everywhere, unbound and protected.

Adaptive Cybersecurity / Next-Gen Infrastructure / Proactive Consulting

### Embracing Hybrid Work

With Next-Gen WiFi solutions by Cisco Meraki, you can create safe, secure and adaptive smart spaces that power up productivity everywhere, letting your teams thrive in the office, at home or beyond.

Let's leverage best-in-class technologies to deliver your team's boundless workplace.

### Transforming how great work happens

**Work Everywhere:** With a Meraki cloud-first system, employees and teams can work best together - hybrid or remotely.

**Get More Done:** With Meraki, we streamline, connect and automate processes, boosting productivity.

**Protect Data:** With advanced security measures and real-time intelligence, let's protect data in motion.

**Smart Workplaces:** Deploy IoT with confidence and make your digital and physical spaces 10X smarter.

## Delivering your Smart Workplace

### 1. Define

Evaluate and test your current environment. Set clear objectives for your Smart Work transformation.

### 2. Plan

Design an integrated, technical solution tightly aligned with business objectives and environmental factors.

### 3. Deploy

Implement smart cameras, sensors, wireless access points with centralised platform analysis and control.

### 4. Educate

Empower your workforce with the necessary skills to utilize the new technology optimally with ease.

### 5. Optimise

Use automation to monitor and refine the deployed environment sustaining performance and amplify value.

## Why engage Murdoch Webster

**Expertise:** Our team of experienced and qualified networking experts can provide guidance on best practices delivering your Smart Work environment.

**Comprehensive Coverage:** With care and expertise we design, deploy and support all aspects of wired, wireless and IoT ecosystems.

**Flexibility & Scalability:** We right-size your Smart Work strategy to scale as your business grows.

# 78%

Of organisations perceive the C-suite as placing a high priority on enabling a hybrid workforce.
