SASE

murdoch webster

Seamless application services, best-in-class protection.

Adaptive Cybersecurity / Next-Gen Expertise / Proactive Consulting

Why deploy a Secure Access Service Edge?
Deliver hybrid workplace connectivity, uncompromised edge security, & AI-powered autonomous IT operations. Embrace rapid, secure transformation with confidence.

With Prisma SASE by Palo Alto Networks, deploy the absolute market leader.

PRISMA® SASE
BY PALO ALTO NETWORKS

Branch Evolution
Extend Zero Trust to hyperconnected branches with Prisma SD-WAN and into your enterprise cloud with Prisma Access.

ZTNA 2.0 Security
Safeguards all applications for your hybrid workforce. Ensures robust application traffic & data protection - always.

AI-Driven IT
Deploy AIOps with ADEM for AI-based threat detection & analytics automation, boosting results & reducing MTTR.
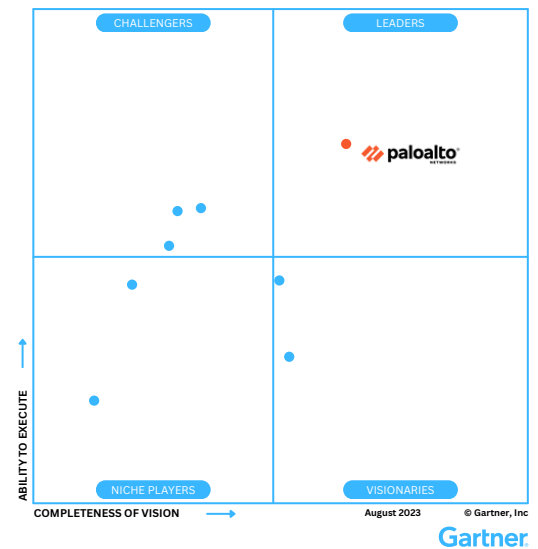

Benefits of SASE

1. **Enhanced Cloud Security for the Hybrid Workforce**: Detect and mitigate advanced threats rapidly, providing comprehensive protection for your cloud infrastructure and ensuring the security of your hybrid workforce.

2. **Continuous & Reliable Connectivity:** Enjoy seamless cloud and branch connectivity, ensuring uninterrupted access to critical applications and services, regardless of location or network conditions.

3. **Improved Operational Efficiency:** Streamline network management and reduce manual efforts with AI-powered autonomous IT operations, allowing your IT team to focus on strategic initiatives.

4. **Enhanced User Productivity:** Provide employees with a superior user experience through fast and reliable access to applications and services, enabling them to maximise focus and drive productivity.

Gartner.

Recognised as the ONLY leader in SASE.

Named by Gartner® as a the only Leader in the 2023 Gartner® Magic Quadrant™ for Single-Vendor SASE.

Why engage Murdoch Webster

Expertise: Our team of experienced and qualified cybersecurity experts can provide guidance on today's best SASE technology and practices.

Comprehensive Coverage: With care and expertise, we design, deploy, and support all aspects of your SASE deployment.

Flexibility & Scalability: We right-size your Security Service Edge strategy to scale with your business, ensuring flexibility and adaptability.

Competitive: Tailored to your business demands, we deliver comprehensive, best-in-class solutions affordably.

A rare bread in Palo Alto Networks Partner

A cybersecurity pioneer, we have partnered with Palo Alto Networks for over 12 years. Our depth in technical excellence, industry knowledge and strategic alignment drives successful outcomes for a truly diverse range of clients across all industry verticals.

A **Palo Alto Networks Platinum Innovator**, we have a deep understanding and comprehensive technical capabilities across their industry-defining cybersecurity platforms.

Our engineers are recognised as some of the foremost experts in the global Palo Alto Networks technical community.

As the only Australian grown **Palo Alto Networks Certified Professional Services Partner (CPSP)** we are one of the few partners across the Asia Pacific to attain this elite status.

As a CPSP partner you can be confident we adhere to the latest best practice deployment methodologies with the support of Palo Alto Networks expertise and resources.

Palo Alto Network's **CyberForce represents the top 1% of partner engineers**, renowned for their exceptional security expertise and customer-centric approach.

Difficult to achieve and highly valued, membership in the CyberForce program reflects our elite levels of engineering excellence delivering real-world customer success.
